To view all products, do the following:

1. Login to your WebStore Manager.
2. Go to **Products > Product Details**.
3. Scroll to **Add-ons**.

Introduction to add-ons

- **Add-ons** enables you to offer items related to a product that can be sold with or without promotion.

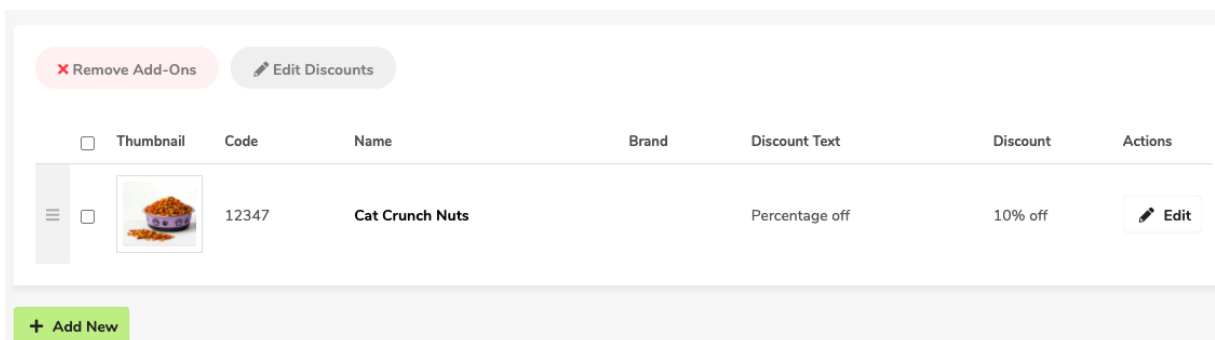

- The **Add-ons panel** is customizable and can be placed anywhere on the product page and styled to your preference using our template editor.
- Choose to provide discounts for add-ons if the shopper buys them together with the main product.
- By offering a discount, you increase the likelihood of shoppers choosing complementary products.
- Savings will be displayed in the Shopping Cart:

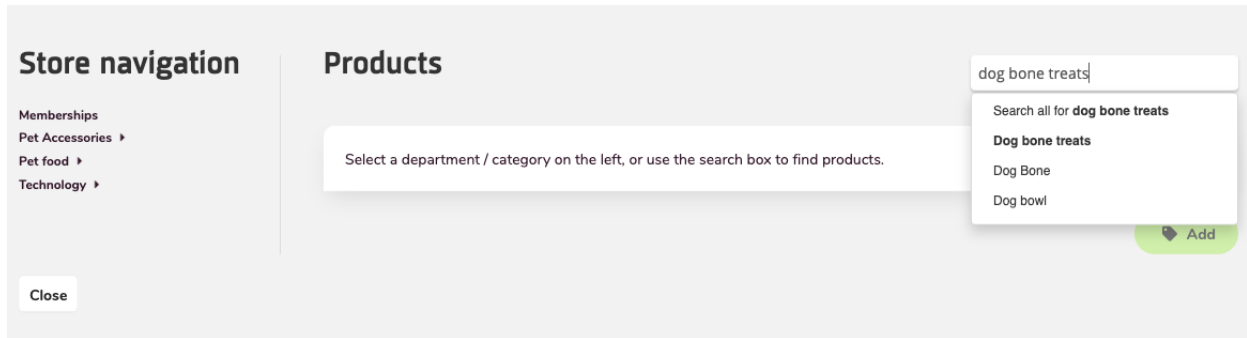

To associate new add-ons with a product, follow these steps:

1. Click **+ Add New**.

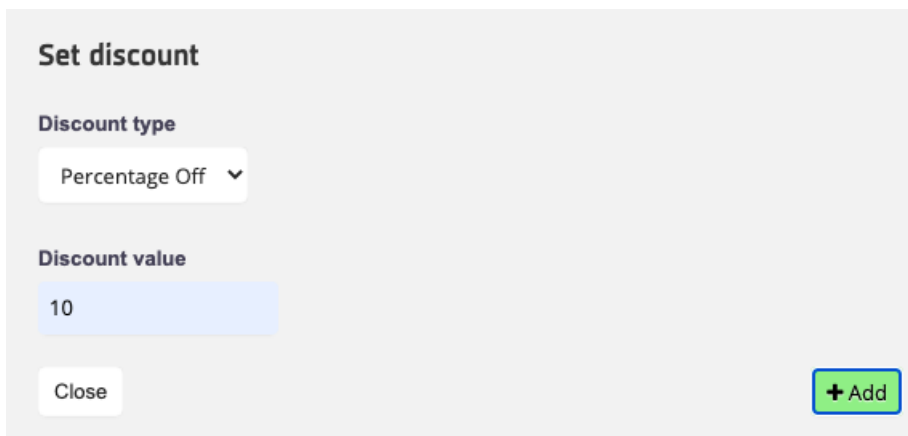

2. Search for the **add-ons** you want to add by either:

- Selecting the department and category or searching for products.

Note: Add your products before going to another category or search for a different product or it will remove the previously checked products.

4. Choose the discount type.

- You can choose from the following options on the dropdown list:
 - Percentage Off: a given percentage will be deducted from the add-on price;
 - Amount Off: a given amount will be deducted from the add-on price;
 - None: the add-on will not be discounted.
- You need not enter the percentage symbol, or any currency symbol.
- Click **+Add**.

Note: If you chose multiple add-ons in the previous step, the specified discount will be applied to all of them.

5. Product(s) you selected will appear in the **Add-ons** section.
6. The products will appear on your product page under **Add-ons**:
