

Export product data to CSV

Last Modified on 17/09/2025 1:35 pm IST

You can export all your product data directly from your WebStore Manager (WSM) to a CSV file. This includes all available products, product image names, and any custom text data.

How to export from WSM

1. Login to your **Webstore Manager**.
2. Under **Products**, select **All products**.
3. At the top of the page, click **Export to CSV** button.

The CSV file containing the product data will be saved to your computer.
